Positives: knowledgeable physician, up to date treatments, clean and nicely decorated office. Negatives: long wait times in patient room, support staff seem disorganized and inexperienced. Long story short, I had two costly facial treatments. I waited with numbing cream for over an hour and a half each time. The medical assistants had to stick me 4x to get my blood. They did not seem experienced, even though they said they have this procedure several times a week. Each time I went to pay, the front desk charged me \$400 extra (I had only gotten part of the treatment and was quoted a lesser price). Ultimately it was adjusted each time. In general I expected more professionalism. Not sure if I will return.
